

The Network for Canadian Oral Health Research is pleased to announce the ...

4th Annual Canadian Dental Student Workshop
*Creating and Sustaining Successful Interdisciplinary Research Teams:
A Theory into Practice Approach*

McGill University, Faculty of Dentistry, Montreal, QC
Thursday June 16th & Friday June 17th, 2016

NCOHR will fund travel expenses for **two (2) graduate students and one (1) faculty member** from each dental school in Canada. Submit names to Dr. Richard Hovey (richard.hovey@mcgill.ca) and Nicolas Drolet (Nicolas.drolet@mcgill.ca) before **Monday May 2nd, 2016**.

Overview:

Over the last few decades, the expectations of health research in Canada have changed considerably. The Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council of Canada (NSERC) and Social Sciences and Humanities Research Council (SSHRC) have promoted these changes by placing a strong emphasis on the creation of new knowledge and its translation into improved health for Canadians. A successful implementation of this translational approach calls for **innovative interdisciplinary research approaches and integration of a wide continuum of health research** comprising of biomedical, clinical, health services and population health research domains.

Outcomes:

- To offer students an opportunity to actively participate in the development of interdisciplinary oral health research projects with other students from across Canada.
- To be introduced to other non-traditional research partners from other disciplines such as education, physiotherapy, family medicine and others.
- To learn how to generate research questions that are truly interdisciplinary e.g., cannot be answered by through research from a single discipline.
- To learn how to communicate effectively with others who may have a different perspective or scholarship about a common topic.

Confirmed Speakers:

- Dr. Laura Stone (Dentistry, McGill)
- Dr. Paul Allison (Dean, Faculty of Dentistry, McGill)
- Dr. Christophe Bedos (Division of Oral Health and Society, McGill)
- Dr. Steven Jordan (Education, McGill)
- Dr. Shaheen Shariff (Education, McGill)
- Dr. Mari Kaartinen (Dentistry, McGill)
